

RAIL STRIKE WILL SOON BE MATTER OF HISTORY

BELIEVE HARDING'S COMPROMISE PLAN WILL BE ACCEPTED

All of Government's Influence Mustered to Obtain Acceptance at Meetings to be Held in New York and Chicago Today—Seniority is the Main Bone of Contention

(By The Associated Press)

WASHINGTON, July 31.—Convinced the railroad strike would be a matter of history 24 hours after acceptance by railway shopmen and transportation chiefs of resident Harding's compromise plan, all of the government's influence was mustered tonight behind the effort to obtain adoption by the employers meeting in New York and that of the employees in Chicago tomorrow.

Chairman Wooper of the railroad labor board, after a conference with President Harding today, left for Chicago to be on hand when the meeting is called of the general policy committee of the striking shop crafts unions.

Secretary Hoover will attend the New York meeting. There was little doubt in administration circles concerning acceptance by the union leaders of the proposed compromise settlement.

Several railroad executives are known to hold strong objection because of their belief that it would entail abandonment of new employees who have stuck thru the strike.

NATIONAL COAL ASSOCIATION IS DEMANDING PROBE

May Leaders of Herrin Mob Can Be Arrested Any Time

(By The Associated Press)

PITTSBURGH, July 31.—The National Coal Association in a statement issued tonight announcing completion of a sweeping, impartial investigation of the Herrin massacre, declared that the leaders of the mob were known to that "at least 500 members of the mob can be arrested any time."

"The association is laying its denials and findings before the governor of Illinois," the statement said.

"Particular emphasis should be placed on the point that survivors of the massacre are able to point out the mob members. The report of the mob was given by the mob, the unarmed prisoners of the mob were shot down in the manner of an army squad executing spies or traitors," says the announcement.

The statement adds:

"The National Coal Association reports the contention of the Illinois attorney general that the massacre was the result of a well laid conspiracy, and that the riot was not spontaneous. The report is comprehensive with such details as the telegram sent to the mob by John L. Lewis, president of the United Mine Workers, failure of the sheriff to do duty, organization of the mob as a military machine and the accepted truce pledges assumed by the sheriff and the king local officials of the United Mine Workers.

Lewis' telegraphic instructions read: 'The members of the steam shovel men's union as an outlaw organization and common strike breakers followed on successive days by mass meetings, the attack on the mine, and the massacre. Lewis and State Senator Ed. Keene, president of the Williamson county sub-district of the United Mine Workers must assume direct responsibility for giving a match into the powder keg.'

The statement announces that an investigation corroborated the charges of barbarous treatment as reported by press associations and newspapers and that several bodies were found and have been buried.

STERLING REFUSES TO CALL SPECIAL ASSEMBLY SESSION

Says Repealing Licensing Law Would Not Solve Crisis

(By The Associated Press)

ROCKFORD, Ill., July 31.—Acting Governor Fred E. Sterling today declined to consider favorably requests for the calling of a special session of the general assembly at this time. His views were outlined in a telegram sent to Herman H. Hettler, president and John M. Glenn, secretary of the Illinois Manufacturers' association who have requested a repeal of the statute referring to the licensing of coal miners in Illinois.

The telegram follows:

"Your telegram of recent date requesting the immediate convening of a special session of the Illinois general assembly for the purpose of repealing the statute relating to the licensing by the state of experienced men as coal miners and also for the purpose of enacting a state constabulary law was received by me. Similar requests have been received from many other members of the manufacturers' association and the same have been given thoughtful consideration.

"In the first matter, in my opinion, repealing of the law requiring licenses for mining coal would not solve the present crisis for it would still leave us without men who know how to mine coal in the deep mines where experienced miners alone can work with safety. It is not so much a question of license as it is the ability to do this particular work. I do not believe coal can be legislated out of the ground by the repeal of the above mentioned plan, if that were possible of accomplishment.

"In the last general assembly the state constabulary bill, after much debate, failed to receive the necessary majority vote for passage in either senate or house. A special session now would have the same personnel as the last legislative body. I do not believe an emergency exists in Illinois today which would warrant the expense incident to a special session of the general assembly to consider the enactment of a state police law, with the convening of a regular session of the general assembly only five months ahead. We now have an efficient national guard, maintained at public expense, which is available and has demonstrated its ability to preserve peace and order in any case where local officers, either cannot or will not enforce the law. In my judgment enactments such as suggested by you are proper subjects for presentation to and consideration by the next general assembly which convenes in January.

"In my opinion a special session called at this time for the two purposes indicated by you in your message would not only prove expensive but also impractical, for the reason that either of the bills suggested for passage would require a two thirds vote of all the members of both houses to make them effective and operative before July of next year, and I am convinced that, for various reasons, neither one of the proposed bills would receive such a necessary two thirds vote to insure the passage of an emergency clause.

The state authorities have done and will continue to do everything within their lawful power to help bring about a solution of the existing difficulties in the coal mining fields of this state."

"Fred E. Sterling," Acting Governor.

BUSINESS CONTINUES DESPITE THE STRIKES

(By The Associated Press)

WASHINGTON, July 31.—Industrial disturbances have begun to make themselves felt but the outstanding feature of the greater part of July has been the continuance of business and industrial activity at the relatively high rate recently attained, according to the monthly summary issued tonight by the federal reserve board.

Production has shown further increase in some lines the board declared, while in those normally affected noticeably by seasonal influences the decreases have been relatively slight.

INDICATIONS POINT TO SEPARATE WAGE SETTLEMENT SOON

Believe That Miners' Union and Some Operators in Pennsylvania, Ohio, Illinois and Indiana May Get Together Soon—Personnel of Some Committees Soon to be Known

(By The Associated Press)

WASHINGTON, July 31.—With the federal emergency coal control machine piloted by Fuel Distributor Spencer finally under way, the possibility that negotiation for a separate wage settlement between the miners' union and some operators in Pennsylvania, Ohio, Illinois and Indiana bituminous fields might be instituted this week, was strongly indicated in Washington today.

Representatives of government departments and producing operators co-operating under the administration's distribution plan set to work on the initial problems facing operation of the scheme, such as organization of regional committees in the producing fields and formation of coal pools. The personnel of some regional committees is to be announced tomorrow.

Members of the federal distribution committee also conferred today with Cleveland operators on the question of supplies for the Great Lakes region but no statement was made as to conclusions reached by the conferees.

In Cleveland, it was understood a meeting is to be held next Monday looking to the settlement of the strike in Pennsylvania, Ohio, Illinois and Indiana.

Ohio coal operators' associations are said to have been made a nucleus about which President J. L. Lewis of the United Mine Workers was forming an interstate group with whom he would shortly attempt to negotiate a wage scale.

It was declared today in informed circles that a representation of operators from the three states other than Ohio in the conference proposed would be so small as to leave it a "rump affair."

There also were fears that if such a gathering assembled, it might drag out a long time, while efforts were being made by those in it to get enough outsiders to make its wage decisions effective in the industry. There always have been operators and groups of operators, it was pointed out, willing to make any wage settlement which the union would accept, but the union policy has been to force an adjustment that would give all of its members a satisfactory scale.

There were indications tonight that the Cleveland meeting might have in it some operators from northern West Virginia as well as the four states mentioned.

Mr. and Mrs. J. R. Sanford of Kokomo were arrivals in the city yesterday.

MINERS DO NOT LIKE POLICIES OF FARRINGTON

In Meeting at Staunton Ask the Resignation of President

(By The Associated Press)

STAUNTON, Ill., July 31.—Miners of Sub-district No. 6, who yesterday in mass meeting here asked for the resignation of President Frank Farrington of the Illinois Miners, today declared they were opposed to the general policies of Farrington which they believed were tending downward a separate state agreement.

A resolution calling for the resignation of Robert McKee, president of sub-district No. 6 and another condemning commercial associations for demanding the repeal of the miner's qualifications law also were passed.

Many of the 2,000 miners from over the district come from as far away as Carlinville, were still in Staunton today. They are unalterably opposed to anything but a settlement for the entire central competitive field, according to the sentiment expressed.

Five Proposals of President Set Forth

(By The Associated Press)

CINCINNATI, O., July 31.—Five specific proposals for the settlement of the railroad strike are contained in President Harding's plan which will be submitted to railroad executives in New York and rail union heads in Chicago tomorrow, it was asserted tonight from an official of the railroad shop crafts union. The official, who refused to permit the use of his name, stated he had secured the information from rail union officials in Washington Saturday.

The five specific proposals according to the official include:

1. That the employees will abide by the decisions of the railroad labor board in the future.
2. In the matter of seniority the employees who remained on the job during the strike will receive preferential treatment. Men who have been on strike will return with their seniority rights subject to those rights acquired during the strike by men who remained on the job and that the seniority of the new employees will date from the time they entered the service.
3. The men will accept the recent wage reductions of the labor board pending a further hearing or renewing on the matter by the board.
4. "Farming out" of shop work by the railroads will be discontinued.
5. Discussions of the establishment of adjustment board or adjustment boards.

Regarding the matter of adjustment boards, the official stated that the unions desire a national board while the executives seek either regional or system boards.

Three points will be stressed by the general chairman tomorrow it was stated as a basis for settlement, restoration for full seniority, national boards of adjustment and elimination of "farming out" of work. They will oppose, it was stated, curtailment of seniority, agreement to accept in the future decisions of the board and other than a national board of adjustment.

It was stated that the matter of accepting the proposals of President Harding is up to the policy committee of the railroad department of the American Federation of Labor since this body was the one which sanctioned the strike of the shopmen.

The policy committee is composed of 90 men, 30 from each of three districts, the dividing lines of which are the Mississippi river and the Mason and Dixon line.

WOOL SCHEDULE IS APPROVED WITHOUT CHANGE BY SENATE

Body Takes up Consideration of Silk Schedule

(By The Associated Press)

WASHINGTON, July 31.—Consideration of the wool schedule, which has furnished the one big fight in the administration bill was completed today by the senate after the approval without change of imports proposed by the finance committee on blankets, wearing apparel and floor coverings. The silk schedule then was taken up and leaders were hopeful that committee amendments to this could be disposed of tomorrow. After the silk schedule will come those dealing with paper and books and sundries, including hides and laces, the free list and the administration provisions with the flexible plan proposed by President Harding.

When the senate winds up work on these, it must go back over the entire bill paragraph by paragraph for action on individual amendments.

There still was divided opinion today as to when a final vote on the measure could be had, but Republican leaders were unanimous in declaring that the senate would pass the bill.

Taking cognizance of a report published in Washington that the senate would abandon the measure, Senator Lodge, the majority leader made this statement:

"This bill is going to be passed by the senate and that at the first opportunity. We are going to stick to it and pass it as soon as we can get a vote."

**Hard to Keep Quorum.**

As was the case Saturday, the senate had difficulty today in keeping a quorum. After a quorum had been obtained, Senator McCumber, Republican, of North Dakota in charge of the bill said he wanted it understood that the order about absentees was to stand for the remainder of the present legislative day, now more than three months old, if that day lasted until March 4. Later telegrams were sent to absentees urging their presence.

While the split in the Republican ranks was noticeable, there was only one sizeable controversy today over wool duties some Republicans and some Democrats voting against the duties on clothing. Senator Smoot, Republican, Utah, in charge of the schedule said and Senator Walsh of Massachusetts conducting the fighting for the minority agreed that only novelties were imported that the American ready made clothing industry could compete with the world.

Senator Walsh argued that the duties were an invitation to domestic manufacturers to combine and increase their prices to the level of the tariff.

Senator Smoot told the senate the duties would affect largely those Americans who sought "to ape the English duds" by wearing only clothes made in London.

SENATE APPROVES WATER DEVELOPMENT

Washington, July 31.—The resolution of Senator Curtis, Republican, Kansas, for congressional approval of agreements between the states of Missouri and Kansas for development of water work and reservoirs for the joint use of Kansas City, Mo., and Kansas City, Kansas, was adopted today by the senate. The resolution now goes to the house.

STEAMER PASSENGERS HAVE BEEN RESCUED

MONTREAL, July 31.—A modern sled driven by engines of 300 horse power, collaborating with simple skills manned by Indians from the Cagunawaga reservation skilled for generations in combatting the treacherous Lachine Rapids, today carried several hundred passengers of the steamer Rapids Prince from the rocks upon which they had been marooned since last night to the mainland, a half mile away.

The vessel is now resting on a ledge of rock with little danger of sinking. J. W. Norcross, vice-president of the Canadian Steamship Lines, owners of the Rapids Prince said tonight that all of the 400 marooned on the ship will be rescued before morning.

MEN REFUSE TO TAKE OUT CARS ON HEARING OF THE STRIKE ORDER

Strike Anticipates by Twenty Four Hours the Formal Order—Elevated Men Strike in Sympathy with Surface Men—Automobile Owners Prepare to Handle Traffic

(By The Associated Press)

CHICAGO, July 31.—A complete tieup of street car and elevated traffic began to make itself felt shortly before midnight tonight after the surface lines employees at a mass meeting had voted for a walkout effective at 4 A. M. tomorrow and elevated men had joined them in a run-away strike, anticipating a formal strike order by 24 hours.

As the cars came into the barns at the end of their early evening runs, the waiting crews refused to take them out after hearing of the strike order. The slow paralysis creeping over the transportation machine began to make itself felt in the downtown section shortly after 11 o'clock and was marked by longer waits between cars and an unusual crowding.

The immediate sympathetic strike by "L" employees was unexpected as they were not scheduled to take final action until tomorrow night. The elevated action was precipitated by 300 elevated employees who attended the surface lines' employees mass meeting earlier in the evening. When the 6,000 surface men voted unanimously to strike, the elevated representatives joined them and later induced the train crews to join them.

The walkout was precipitated by the demand of the surface lines that their men accept a wage reduction of approximately 17 per cent.

A compromise offer by the men expressing willingness to take a flat ten percent reduction was rejected by the surface lines. The present wage is at the rate of 80 cents per hour.

A sympathetic strike by the elevated employees arose because of the refusal of the companies to extend the present monthly wage contracts for a year.

**Auto Owners Prepare**

To meet the threatened tieup, automobile owners were preparing some 250,000 automobiles to tonight and many expressed the conviction that the automotive power of the city alone would be able to take care of the situation.

Many street car employees who own cars were preparing to operate them as "jitney busses" wearing their uniforms to obtain sympathy and attract patronage. It was also predicted that the unions would put big trucks on the streets to carry passengers. To handle the situation successfully the automobile fleets probably "the largest ever called upon in such an emergency would have to handle more than 3,000, 000 passengers daily.

Suburban railway officials were making extensive preparations to increase their trains, taxi-cab companies were prepared to put out some 2,700 cabs and industrial firms were preparing moving vans and trucks to handle their employees.

MISSOURI IS ALL SET FOR PRIMARY ELECTION TODAY

First in History of State in Which Women Will Take Part

ST. LOUIS, Mo., July 31.—Missouri tomorrow, in the first primary participated in by women in the history of the state, will select candidates for United States senator, congressman, and state officers, and city officials. Four political parties—Republican, Democratic, Socialist and Socialist-Labor—have tickets in the field.

Polling places in the 3,848 precincts of the state will open at 6 a. m., and close at 7 p. m., and indications are that both the voting and counting will be slow.

Voting will be on a strip ballot, under rules requesting the voter to draw a line thru the name of every candidate not voted for instead of putting a cross before the name of his choice. The Republican ballot in St. Louis alone is 6 feet long and has the names of 210 primary candidates in addition to 52 committeemen.

The Democratic ballot in St. Louis carries the names of 195 primary candidates, 54 committeemen.

Interest in the primary in Missouri has been overshadowed by the bitter campaign between Senator James A. Reed and Breckinridge Long, third assistant secretary of state under President Wilson, for the Democratic senatorial nomination. There is a third candidate in the race, Robert I. Young, St. Joseph, but he has not made an active campaign.

The league of nations, the war, prohibition, home rule, party regularity and nearly every other subject of peoples' political difference has been invoked in the Reed-Long fight.

Reed, the grizzled veteran of many campaigns, whose boast it is that he has never lost, has been the center of the storm.

"Rid us of Reed" clubs and "Win with Reed" organizations have sprung up all over the state and other issues almost have been lost sight of in this controversy.

Former President Wilson broke his silence to send letters into the state denouncing Reed as a "marplot." The Democrats who read their senior senator out of the party in 1920, have revived (Continued on Page Four.)

in operation in the past year. That is about 50 per cent more than the maximum annual cost of the ship subsidy bill now pending in Congress, but with that measure enacted into law the Government could dispose of its fleet to private operators and retire from the shipping business.  
There have been hundreds of millions of reduction in the gross debt, the net debt, the floating debt, and the bonded debt of the government in the last year. The figures for each class vary slightly, but, any way you look at it, there has been a tremendous falling off in the amount of taxes that we and our children have got to furnish to pay the nation's liabilities. The reason is simple: Republican policies rigidly applied by determined Republican officials.  
One of the reforms proposed in Mexico is a decided reduction in the number of federal employees. This may make the government expense less but will increase the number of those plotting against the government. That's the way they do things in Mexico, and the habit is strong.  
Some recent figures of the department of agriculture show that the farmer's buying power is today 25 per cent less than was true before the world war. big, but there isn't any more show "per spectator" than there used to be. So with troubles, resulting from the war.  
A wise nerve specialist, in H. G. Wells' book, "The Secret Places of the Heart," comments:  
"This sense of a coming smash is epidemic. It's at the back of all sorts of mental trouble. It is a new state of mind. Before the war it was abnormal phase of neurasthenia. Now it is almost the normal state of mind, a whole class of intelligent people. A loss of confidence in the general background of life. So that we seem to float over abysses." Using the Wells statement as a text a philosopher gives these hopeful thoughts.  
The world ate a lot of bad mental and economic food during the war. The unnatural diet refuses to digest. It ferments. While the medicine of deflation is at work, the world has cramps. It is an old disease, easily recognized by specialists in the history of economics, sociology and psychology.  
The important thing to keep in mind, during these strenuous times, is that the malady causing our aches and pains is not fatal. The world has recovered from it before. It will recover again.  
A cheerful patient always recovers faster than the sick man who sees nothing in sight except heavy plumes.  
The more the world allows itself to be discouraged, the longer the world will remain flat on its back.  
Recovery already is in evidence. The patient is sitting up, asking for nourishment. The agony is not all gone—some of it may linger as long as we live—but the worst of it is over.

**POSTPONE SHOOTING WELL**  
The well on the Mahon farm now being drilled under the direction of Messrs. Rhodes and Mooreman, will not be shot until later in the week. It was the expectation that the nitro-glycerine could be exploded yesterday but some rock the drill encountered caused trouble and the shooting was postponed for a few days. A definite announcement will be made later as to the exact time so that all who wish to do so may be present.

**WABASH TRAINS NOW RUNNING INTO HANNIBAL**  
It was announced yesterday by John W. Marshall, Wabash agent, that trains number 3, 4, 12, and 15, are now restored to service and are running into Hannibal as usual. This shows that the railroad is getting on their feet again and that efficient transportation service may be again given the public.  
**NOSE FRACTURED AT BALL GAME**  
John Davis, C. & A., agent at Manchester, was painfully injured Sunday while watching the game between the local Dokays and the Murrayville merchants at Murrayville Sunday. A wild ball struck the man in the nose, fracturing it. Mr. Davis was brought to this city where he received medical attention.

**A COMMUNICATION ABOUT THE HARD ROADS**  
Editor Jacksonville Journal:  
Dear Sir:  
Once more Greene County Scores on Route No. 3 with a contract from White Hall to a point where the Route passes into Scott Co., between Manchester and Roodhouse and the road making apparatus is being moved into Roodhouse to commence building and this road making it to be done over roads that have to be prepared for laying cement.  
Morgan County has miles and miles of prepared road, surveys made, bridges in, road grades and settled along proposed Route No. 3, but the spirit of the citizens of Morgan seems to be that of let "George Do It." Just so long as this spirit prevails the live counties will get the contracts for hard roads and we will continue to pay the double tax consisting of mud roads and state taxes.  
The State Highway Commission and the Governor will let contracts where the people want them let, and communities that do not take enough interest in the matter of hard roads will be the last ones to secure these roads.  
I am informed that every county between Jacksonville and St. Louis, with the exception of Morgan and Scott either have a contract let or some portion of the road under construction, which would indicate that we are either being discriminated against or not "On the Job."  
The Governor when he was in Jacksonville this spring indicated that he was more than anxious to complete the intervening stretches of road that were then under construction, and as Route No. 3 is already completed from St. Louis to a point north of Alton, with one or two pieces north, several pieces under construction and several more contracts let. I am of the opinion a little team work will bring us a contract south from Jacksonville yet this season. "Let's Go" write, telephone, telegraph and call and make our wants known.

**OBITUARY**  
Mrs. Charles Hegarty of Springfield passed away at her home at 1315 North 4th street on Thursday, July 20, at 4:30 p. m. after a long illness.  
Margaret Lynch was the oldest child of the late Thomas and Sarah Lynch of Chapin. She was born in Rochester, N. Y. and when a small girl moved with her parents to a farm south of Chapin. Here she grew to womanhood. On Feb. 6, 1883 she was united in marriage to Thomas Hegarty of Jacksonville. To this union five daughters were born, two having preceded her in death, Catherine and Nora. The remaining daughters are Mrs. Maurice Scott of Rochester, Mayme of Chapin and Nellie at home. There are also two sisters, Mrs. John Casey of Woodson, Ill., and Sadie Lynch of Chapin. Two brothers Charles

and Joseph Lynch of Chapin also three grandsons.  
Deceased was a member of St. Joseph church of Springfield and the Catholic Forerunners of New Berlin. She was loved and respected by all who knew her. She was a fond mother and a patient sufferer.  
Funeral services were held Saturday July 22 at 9:30 a. m. at St. Josephs church with Rev. P. J. O'Reilly officiating. The bearers were John Dorsey, Thomas Hogan, John Little, Thomas Gormely, John Hicky and James Haugh. Interment was in Calvary cemetery.  
Those attending from out of town were Charles, Joseph and Sadie Lynch, Jennie Guinave, Marguerite Hogan and Mike Lynch of Chapin; Mr. and Mrs. John Casey and son of Woodson; Mrs. John McEnroe of East St. Louis; Mrs. A. Swannec of Staunton; Mr. Joseph Kelley of Chicago; Mr. and Mrs. T. Sloan, Mrs. Annie Hegarty and son Leo; Mrs. T. Keating, Eldon Horton, Mrs. Mary Hegarty and son, John Mr. and Mrs. J. J. Clancy and Annie Quigley all of Jacksonville; Charles and Leo Scott and Cecelia Stapleton of Staunton.

## PATIENT DIES AT STATE HOSPITAL

Coroner's Jury Investigated Death—Found Cystitis the Cause.

The jury which investigated the cause of the death of Jerry Shetler of Jacksonville State Hospital Sunday evening found that his death occurred because of cystitis, a contributory cause being a weakened condition resulting from a leg fracture.

The inquest was held by Justice A. B. Opperman, who is acting coroner during the absence of Coroner Rose. Several weeks ago Shetler was injured while returning with other men on a truck from a point east of Arnold, where they had been working on the hard road. When the truck struck an embankment Shetler's leg was fractured.

The record shows that the deceased was born in Chicago but later moved to Taylorville. He has been an inmate of the hospital for several years.

The jury which heard the case included Ralph Withee, foreman; G. L. Hughes, Fred Taylor, W. M. McNeal, William Reichart and Howard Wanamaker.

## GREECE AGAIN IS FORCING NEAR EAST PROBLEM TO FRONT

Threat to March on Constantinople Causes Statement from George

(By The Associated Press)  
LONDON, July 31.—The action of Greece in threatening to march on Constantinople and proclaiming autonomy for Smyrna and its hinterland again has forced the difficult near eastern problem to the forefront in diplomacy.

Premier Lloyd George in an important statement to parliament today was able to give reassuring information concerning the crisis—to the effect that Greece had reaffirmed its previous undertaking not to invade the neutral territory including Constantinople without the consent of the allies. The premier expressed the opinion

that the motive for the Greek action was to expedite a settlement of the near eastern question. He added that a meeting of the powers chiefly concerned would be convened to discuss the situation. As is known a conference to discuss the near east, Tangier and other questions long has been under consideration but it has been difficult to assemble the powers. Lloyd George apparently now has decided not to await a settlement of the Italian cabinet crisis to bring the powers concerned together.

Great Britain, France and Italy, all are agreed not to permit Greece to force matters by a march upon Constantinople, but they are by no means agreed on a general policy concerning the near east. It is considered that it was knowledge of this disagreement which induced Greece to attempt to force the situation by proclaiming the autonomy of Smyrna hoping that by so doing to prevent the proposed solution of the situation by returning this territory to Turkey.

Meantime it is not generally believed that Greece will proceed to extremes. Although she is assembling large forces of troops at Rodosto the powers are taking the necessary steps to resist any attempt upon Constantinople. A strong British fleet is gathering in Turkish waters, and allied reinforcements are being sent to Turkey.

One view of the situation taken in political circles here is that the move of Greece is a bluff on the part of King Constantine to save his face in his own country and induce the powers to recognize him.

## MAN MAROONED ON ISLAND IS RESCUED

THE PAS, Man., July 31.—After being marooned on an island without food or shelter for 21 days, Frank Teynard, 72, has been rescued according to word received from Mile 32 on the Hudson Bay railway, today.

Teynard, who is a trooper and has a shack on Cormant Lake, went out some three weeks ago in his canoe looking for duck eggs. He landed on a small rocky island and during his search a storm carried his canoe away. The trapper was isolated on a spot seldom visited by travelers. There was no fuel for building a fire and the only means of sustenance was some half dozen duck eggs, water snails, small fish, wild mint and roots of weeds.

Reynard was conscious when found by a local trapper by very weak. He is recovering rapidly and says it was the healing and strengthening properties of wild mint that kept him alive.

## WEST VIRGINIA CAMPAIGN CLOSES

(By The Associated Press)  
CHARLESTON, W. Va., July 31.—West Virginia's red hot primary election campaign closed tonight and political leaders forecast any close contests at the polls tomorrow for national offices. There are five candidates for the Republican nomination for United States Senator.

Howard Sutherland of Elkins is seeking re-nomination and is opposed by H. C. Ogden, Wheeling, publisher; A. A. Lilley, Charleston, former attorney general; C. F. Edwards of Huntington, a manufacturer, and Deacon M. F. Jones, Charleston, octogenarian.

M. M. Neely of Fairmont, former representative and Mrs. Isetta Jewell Brown of Longwood, are the Democratic candidates. Mrs. Brown is the widow of William G. Brown, who was a representative.

## CONY ISLAND BATHERS GET WHISKEY FROM SEA

New York, July 31.—Early bathers at Coney Island got the benefits of an ill wind that blew on some auxiliary sloop. One swimmer became entangled in a submerged rope to which a float was attached. Pulling on it he found a bottle of whiskey. Other swimmers heard a search of the nearby waters and in 20 minutes two cases had been picked up.

## LIQUOR SHIPS ARE BEYOND 12 MILE LIMIT

New York, July 31.—Five ships said by prohibition officers to be laden with liquor were reported today lying off beyond the 12 mile limit and awaiting the arrival of rum-running craft. Within the harbor and scattered at advantageous points along the New Jersey coast, prohibition Zone Chief John D. Appleby announced the dry navy, manned and armed for action awaited developments.

## ITALY WILL BEGIN NEGOTIATIONS SOON

Washington, July 31.—Notification of Italy's intention to begin negotiations with this country for the funding of the Italian war debt is expected shortly, it was said today at the treasury. High officials expressed the opinion that the question would be taken up on the return of Ambassador Roland Ricci to this country about the middle of August.

## MINE BLAST KILLS

Joplin, Mo., July 31.—Bert Oliver, a powder man, was killed instantly; Floyd Flinn was blinded, perhaps permanently, and Everett Sherwood sustained a broken leg when a sound of shots exploded prematurely in Picher Mine 22, at Picher, Okla., today.

Twenty five men were in the mine at the time.

(Continued From Page One)

old hatreds; the anti-saloon league has branded him a wet, and is supporting Long; women's organizations have campaigned against him, because, they said, he was against suffrage and the maternity bill; party leaders have charged him with irregularity because he supported LaFollette, Progressive candidate in the 1920 senatorial race in Wisconsin and in his stand on the war, league of nations and President Wilson's policies have been raised against him.

Reed denied he ever fought against former President Wilson, declared he was a real Democrat supporting the people's interests, disposed of the ex-president's letters with a warning against dictation; dismissed the prohibition question with a reference to Mr. Long's alleged well-stocked cellar, and declared he backed the LaFollette candidate in an effort to beat Senator Lenroot when he brands a reactionary only after it was seen the Democratic candidate could not win.

"I never strayed from the path but have been the real Democrat all along," he said. "A rubber stamp senator is not a representative of the people."

Mrs. Champ Clark, widow of the former speaker of the house and her son are among those who have endorsed Reed. On the Republican ballots there are six candidates for United States senator, Jesse W. Barrett, state attorney general and an avowed Progressive, David M. Proctor of Kansas City and an admitted enemy of the "old guard", and John C. McKinley, of Unionville, who has been conducting his campaign by mail represent the Progressive side. R. R. Brewster of Kansas City, has the support of the regular Republican organization.

William Sacks reputed millionaire oil man, is in the race on a light wines and beer platform, a program that also is endorsed by Colonel John H. Parker of Jefferson Barracks, a soldier candidate.

## ALLEGED LIQUOR SMUGGLERS ARRESTED

(By The Associated Press)

PENSACOLA, Fla., July 31.—Indictment of 16 persons, alleged to be members of a well organized ring of Chinese smugglers that has been operating extensively between Cuba and the United States for more than a year, became known today after Assistant United States District Attorney Hoffman had been notified of the arrest of Louie Ying, alias Quon Yick, a Chinaman, in Philadelphia.

## BIG BARN BURNED ON JUDY FARM

A large barn on the farm of Miss Mary Judy near Tallula was burned Saturday, causing a damage of about \$10,000. Thirty-five tons of hay, 1500 bushels of oats and 1500 bushels of wheat were destroyed, together with the large barn building.

## MISS ROBERTSON IS CONFIDENT

(By The Associated Press)

MUSKOGEE, Okla., July 31.—Confident that her old platform, "a Christian, an American and a Republican," will win her renomination and send her back to the house chamber in Washington to answer to the call "the lady from Oklahoma," Miss Alice Robertson slipped away tonight to remain in seclusion until the ballots are counted in tomorrow's primary.

Today "Miss Alice" did no campaigning. She expressed no concern over the strength of her opponent for the nomination, Gus Tinch, oil man.

But supporters of Tinch predicted the end of the eighth district congresswoman's political

career in the voting tomorrow. They predicted her defeat upon her opposition to a federal soldiers' bonus and to the Sheppard-Towner maternity bill and other legislation sought by women's political organizations.

## BUS SERVICE IN SOUTHERN ILLINOIS

Marion, Ill., July 31.—Bus service for passengers has been substituted for trains which were discontinued by the Marion and Eastern railroad operating between Pittsburgh and Palton, Ill., when the shopmen of the railroad went on strike Sunday. Truck service is being used for freight, express and mail.

Truman Smith enjoyed a visit with friends at Rock Bridge Sunday.

## 1 KILLED, 5 HURT IN BIG ACCIDENT NEAR BEARDSTOWN

Springfield Man Meets Death and  
Five Others Are Injured When  
Burlington Train Hits Auto  
Sunday Morning.

Beardstown, July 31—Daniel Goodhart of Springfield was killed and five others, one also of Springfield, were seriously injured at 9 o'clock yesterday morning, when the auto in which seven men were driving from Virginia to this city was struck by a Burlington railroad switching engine at the Sixth street crossing in this city. One man escaped uninjured.

The dead and injured are:  
DANIEL GOODHART, 506 1/2 North Sixth street, Springfield, killed.  
Clarence Martin, 203 1/2 East Adams street, Springfield, leg crushed; will have to be amputated.  
John Anderson, of Beardstown, left leg fractured.  
Henry Mannell, of Virginia, ankle sprained and bruises about the body.  
William Devlin, of Virginia, body bruised and sprained ankle.  
David Nelson of Virginia, sprained ankle.  
Ellis Moore of Flora escaped without injuries.

Those who saw the accident declared that the switching engine was not moving rapidly and was brought to a stop within thirty feet of the place where the accident occurred. The auto was ground under the wheels of the locomotive, however, completely wrecking the machine and causing the death of Goodhart and the injuries of the others. Moore's escape without injury was miraculous, according to witnesses.

The injured men were rushed to a hospital in Beardstown. Goodhart died a few minutes after his arrival. Martin's leg was so badly crushed that physicians declared that amputation would be necessary. Anderson, whose left leg was fractured, was not injured so seriously. Amputation will not be necessary in his case, physicians said.

The party of seven men was driving from Virginia to Beardstown when the accident occurred. Mr. Martin, of Springfield, was driving the car. He drove from Springfield to Virginia yesterday accompanied by his wife, and was visiting in Virginia at the home of his parents. His wife came to the hospital here this morning to attend at his bedside as soon as word of the accident reached her.

Andrew Goodhart, of Springfield, brother of the man who was killed, arrived here at noon today, and will

## TO TEST ENDURANCE OF SADDLE HORSES

Three Hundred Mile Ride at Colorado Springs Will Prove Which Breed of Saddle Horse Has the Most Endurance

CHICAGO—The mettle of endurance of various breeds of saddle horses will be tested at Colorado Springs, Colo., in a 300 mile ride which starts August 1 and ends August 6. Partisans of the cow ponies, place their faith in the little horses bred in the shadows of the Rockies against such aristocratic descendants of Ebbinus as the Arab, the thoroughbred, the race horse, the "quarter horse" and others. Details of the event have been made public by the Horse Association of America, which has its headquarters here.

The horses will have to carry a rider, saddle and other equipment totaling 200 pounds and when the ride is over he will have to come in sound and fresh and prove it by going all gates in good shape the following day. It also will be an endurance test for the rider deciding whether the devotee of the polo field, the chase or the steer herder has fortified himself with the greatest amount of stamina by his activities.

Harry McNair, of Chicago, one of the last year's judges, favors a western bred cow pony for the place in the hall of horse fame which will fall to this year's winner. Out of the 60 to 70 horses scheduled to start he expects five or six to finish in good shape.

Major Henry Leonard, an internationally known horseman, who is taking great interest in the contest, has written to Wayne Dismore, secretary of Horse Association of America, that Edward Pring, a Colorado ranchman has entered two horses; Allyn Perkins of the Turnkey Creek ranch has put in three, and Dan D. Casement one of the most famous of the older Colorado Cattleman backed his belief in the Concha Colonel family of "quarter horses" by entering two stables sired by that horse.

William Irvine has entered two thorough breeds and the polo pony is represented by two entries from Lafayette Hughes. A good deal of interest is aroused by the fact "Slim" Sherwood one of the most prominent cow punchers and horse breakers has entered a Half-thoroughbred.

Entries have also been received from Fort D. A. Russell, Wyo., Fort Reno, Okla., Fort Leavenworth, Kas., and Fort Riley, Kan. Major Leonard together with D. Bryant Turner and Major Grove Cullum, U. S. A. are the judges. Major Leonard has acted as judges for the New England Endurance ride for the last three years but declined to act this year because he believed the job should be passed around. It is probable some of the entrants in the western contest will be sent East for the contest held there in October.

Sydney, N. S. W.—(By The Associated Press.)—Announcement of the impending dissolution of the State orchestra has thrown the New South Wales musical world into consternation. The government has given the musicians 3 months notice following the announcement that the deficit last year amounted to approximately \$50,000 and that the annual expenses were more than \$100,000. The pleas of music-lovers to the government asking a reconsideration of the decision to abolish the orchestra have been unavailing thus far.

## ONE HUNDRED ARE INJURED WHEN BIG GAS TANK EXPLODES

Throws District Covering  
Six Blocks Into a  
Panic

(By The Associated Press)  
CHICAGO, July 31—More than a hundred persons were injured and an entire neighborhood terrorized today by the explosion of more than 4,000,000 feet of gas and the collapse of its container. The terrific blast, accompanied by a towering column of flame, came without warning and spread burns, desolation and fear thru a district covering about six blocks and peopled mostly by foreign laborers.

Boys playing baseball in vacant lot more than one hundred yards from the gas plant had their eyebrows burned off and their hair singed and suffered burns on their faces. The millions feet of gas ignited from some mysterious cause which engineers have been unable to explain, lifted the top of the huge circular tank, 153 feet high and 190 feet in diameter buckled in and collapsed—a mass of glowing, twisted iron. The massive steel girders which had formed the superstructure also gave way in many places.

The loss was placed at approximately \$50,000.

## BERLIN HAS ANCIENT TRADE ORGANIZATION

Berlin—(By The A. P.)—Berlin's oldest trades association, the bakers' guild, this month observed the 650th anniversary of its founding.

Altho this organization, which was known originally as the Germania guild, dates back only to 1272, there is documentary evidence that the bakers' trade was plied here as early as 1230. By 1800 there were 750 members enrolled. Meanwhile another association of bakers, the Konkordia, sprang up, and in 1911 the two organizations were amalgamated in a body which now requires affiliation of every baker in the city. The present membership includes 1,670 members.

### ARTHUR VAGHTS SUFFERS PAINFUL ACCIDENT IN FALL

Arthur Vaghts, proprietor of a bicycle shop on East Morgan street, suffered serious and painful injuries when he fell thru a cellar door yesterday afternoon about 2:30 o'clock.

Vaghts had been in Long's pharmacy on business and came out of the back door, which opens out to a small court. The door is partially blocked by a cellar door leading to the basement of the Crawford building. Vaghts, who weighs 235 pounds, stepped on the corner of the door, and the door gave away and threw him nine feet to the cellar where he landed on his back.

The injured man was taken to his shop and Dr. W. P. Duncan was called. The extent of the injuries is not known yet but Dr. Duncan stated that the man was badly injured.

# Remember This Is Dollar Day

Today is the DAY. What day? Dollar Day. The biggest event in the commercial life of Morgan county. The day that every one can find a good buy for his purse, no matter how lean.

A traveler on roads leading to the city will see hundreds of cars, each bearing its load of eager commuters with their Dollars in their fists, all on the way toward Jacksonville the home of the original bargain.

Many have been the groups of bargain hunters in the city the past two days who have stopped in front of the elaborate and gratifying displays of bargains in the windows of local merchants. One man is saying to his fellow:

"How do they offer that article for such a price?" The other win-dow gazer replies, "Why man, you're in Jacksonville and Tues-day is the day that the merchants give their best and finest for the lowest price at all possible." Those who are downtown this morning will hear such remarks and many similar ones.

The prices on some articles are being reduced as much as 85 per cent, and there is not a cooperat-ing merchant who does not have a twenty five or thirty per cent cut on his wares.

And so, people of Jacksonville and vicinity, you are invited to come and buy, buy and buy, to your heart's content.

### CITY COUNCIL PLANS MORE SIDEWALKS

Bids Will be Asked for Construction on Certain Streets—Battle With Weeds Begins—Paving Ordinance for West College Passed.

Matters relating to sidewalks and destruction of weeds occupied the attention of the city council at a very brief session Monday night. R. Y. Rowe, mayor pro tem, presided, and the others present were City Clerk Scott, Aldermen McGinnis, Lon-ergan, Elmie and Sorrells. The College avenue paving ordinance was passed.

Dr. Brokaw, health commis-sioner, in his report with refer-ence to the vacant lot between Morgan and East State streets, about which complaint has been filed, indicated that the trouble has been remedied.

Dr. Brokaw also made reports about certain places on West and Court streets about which com-plaints have been made. On rec-ommendation of Alderman Sorrells the clerk will advertise for bids for the construction of cer-tain sections of side walks on West Morgan street, Lurton, Wol-cott, and 2 East Chambers streets and Allen avenue.

Alderman Sorrells also made a report with reference to some walks it is expected to re-lay in the loop district.

Complaints were filed about hedges which have grown to a dangerous height on Edge Hill Road and Gladstone street. This matter was referred to the chief of police and the city attorney.

Other complaints were filed, relative to weeds on certain lots on South Church street, Cham-ber street, North Sandy, Center and Railroad streets and on prop-erty of the C. P. & St. L. railroad. Ten days' notice will be given, during which property owners may have the weeds cut. Other-wise the city will take the neces-sary action to compel the owners to do the necessary work.

The ordinance for the paving of West College avenue from Main street to Webster avenue was giv-en a second reading and adopted.

### IS WALKING ACROSS THE COUNTRY

Layton Holloway, whose home is in Boynton, Mo., was a visitor in Jacksonville Sunday. Mr. Hol-loway was walking from Spring-field to Jacksonville when over-taken by a Jacksonville resident who gave him a "lift" to this city.

The young man, who is a grad-uate of the University of Cali-fornia, is a real pedestrian. He was in the navy for two years and a few weeks ago made the trip from San Francisco by water to Philadelphia. Then he took the train to Boston and is on his way to visit relatives in his old home town of Boynton.

He does not refuse automobile rides but it walking most of the distance, because he enjoys walk-ing and from the further fact that he does some writing and is hav-ing experiences which he thinks are worth recording. He is clad in khaki and carries a knapsack which contains all that he needs for his simple life.

Jacksonville people who met Mr. Holloway found him an inter-esting conversationalist and en-joyed hearing about some of his experiences.

### ATTENTION AMERICAN LEGION

### WILL ATTEND PAGEANT

Dr. and Mrs. E. L. Hill of Jack-sonville State Hospital, left Sun-day for Chicago where they will enjoy a vacation and witness the pageant of progress.

William Scott, district man-ager of the North Ridge Brush company, spent Saturday and Sun-day at the home of his parents, Mr. and Mrs. G. H. Scott of Grove street.

Miss Ethel Smith of Chicago is visiting home friends in Jack-sonville.

Henry Combs of Exeter was numbered among the city callers yesterday.

### ADDITIONAL TEACHERS FOR THE HIGH SCHOOL

Are Necessary on Account of Large Number of Tuition Pu-pils—Bids for Open Air School Are Too High.

The board of education met last night for the regular meet-ing of August and transacted a small amount of business.

A large attendance at the high school was predicted and addi-tional teachers was ordered.

The resignation of Richard Hobson, physics teacher, was ac-cepted.

The matter of the open air school building was referred as all the bids were entirely too high.

### The Proceedings

The board met in regular ses-sion with all members present ex-cept Members Fiedler and Rapp. President Black in the chair.

Pay roll of \$931.73 was ap-proved.

The secretary announced that the treasurer's report was not ready as a considerable amount of additional taxes would be paid in August and it was his request to defer that until the next meet-ing.

It was decided to issue antici-pation warrants for current ex-penses, if necessary.

Dry weather has rendered grass cutting almost unnecessary and consequently the committee on building and repairs reported a goodly amount of work done in getting buildings ready for the coming school year.

The matter of refunding of bonds was mentioned and satis-factory progress was reported in the transfer of the old and issu-ance of the new.

The secretary announced the resignation of Richard Hobson, teacher of physics in the high school, as he wished to pursue his studies. He anticipated no trouble in securing a person to fill his place.

The chair reported that two ladies had applied for positions in the schools but no action was tak-en.

The matter of a superintendent of dental hygiene was brought up. It was deemed a very good thing, especially if undertaken with the primary grades, and it may be un-derestimated later. The chair also sug-gested that much of the work would undoubtedly be done by the local dentists.

### More Teachers Needed

The secretary said that from applications coming in the probab-ilities were that the high school would have 100 more pupils this year than last, and from two to four more teachers would be in-dispensable. It was also probable that the tuition paid by outsiders would largely meet the expense of extra teachers.

The secretary suggested also that it would be wise to attend to the matter as this was the best time to secure teachers.

The matter of extra teachers was referred to the committees on teachers and courses of study with power to act.

A request for the payment of the remaining thousand dollars due to the Gause estate was pre-sented. A small amount of work yet remained to be done and the treasurer was ordered to pay nine hundred dollars and retain a hun-dred until the contract is com-pleted.

Superintendent Perrin sub-mitted the following schedule for the coming year, which was adopt-ed.

It is in conformity with the North Central Association's de-mand for two semesters of 18 weeks each.

First semester—18 weeks.

September 11, begins. Thanks-giving holidays, Nov. 30-Dec. 1. Christmas, Dec. 23-Jan. 2.

January 22, semester ends.

Second semester—18 weeks.

January 22, begins; May 31, se-mester ends.

The bids for the work to be done on the open air school build-ing were ordered opened. C. E. McCarthy was the only bidder and his figures with certain conditions were as follows: \$6,466.68, \$6, 137.68, \$5,497.05.

As the sums mentioned were beyond the ability to pay, all were rejected. The fact is the plans are fine and desirable.

The whole matter therefore was left to the superintendent and building committee to revise and change in order to come within the means of the board.

### BOYS RETURN FROM CAMP

The boys who have been at the Rotary Club house for the past week under the auspices of the Social Service league, returned to Jacksonville Monday morning. All of them thoroughly enjoyed the trip. They were under the di-rection of Rev. W. E. Spoonst.

### RETURN FROM FISHING TRIP

Mr. and Mrs. J. V. Petry and Mr. and Mrs. C. A. Sheppard and son Carl have returned from a few days camping trip at Lakeside cottage at Wilcox lake. Mr. Shep-pard while there caught the larg-est bass taken from Wilcox this season. It weighed six pounds on Ike Walton scales.

### LEFT FOR WEST

Dr. and Mrs. G. H. Kopperl left Sunday for a month's vacation in the Colorado Rockies. The Kopperls have a cabin in Eldora, Colo-rado, where several other Jack-sonville families spend the sum-mer. The trip is being made by auto.

Miss Dorothy Lambert and Rich-ard Lambert of Orleans are in Jacksonville for a two weeks' vis-it. They will divide the time at the homes of their aunts, Mrs. E. E. Beastall and Mrs. George E. Belzer.

Raymond Seal of Nortonville was a caller in the city yesterday. Mrs. Marshall Miller made a trip to Springfield yesterday.

## THE EVOLUTION OF THE REAPER

J. A. Groves, has contributed some interesting facts regarding the reaper used today and the evolution of that useful machine. In the caves of pre-historic men have been found rude implements designed for cutting some kind of a crop. They were circular and made of stone and some of bronze and some of deer horn. As far back as 1803 in England there were several attempts at a machine to cut grain but none were successful. A series of shears were used but they didn't operate satisfactorily.

The sickle, used from time immemorial, was used here at an early date. Mr. Groves said Edward O'Meara was an adept in its use. The scythe is a comparatively recent instrument. Then for cutting grain a frame was made to go with the scythe and one finger only was used. The cradle wasn't perfected till about 1830 or later.

A man named Hussey had a horse drawn reaper but it had no reel and the grain fell all sorts of ways.

At an early day William Parlin went to Canton and was the original member of the famous firm of Parlin & Orendorf. He had much to do with the various agricultural machines.

Adam Allinson tried a Hussey machine. The driver and all men had to walk. The grain fell in all directions and Mr. Allinson told them to throw the machine into the fence corner and take the cradles. Cyrus McCormick saw the Hussey machine and added a reel to it. His first reaper was pulled by one horse and another man walked beside it and raked off the grain. The machine was shown in the world exposition in London in 1831 and the year after at Paris and the people were pleased, but it was not adopted.

About 1845 a machine was made with a seat for the driver but it was little used. With this machine Mr. Groves said he worked. People in this locality didn't take to the machine and McCormick took it to the northwest and built his works in Chicago. It was well toward 1860 before the harvester began to be used very much. It was drawn by two or four horses, the driver rode and four men followed to bind. Next came the Marsh harvester on which two men rode and bound and had to hustle if the grain was good.

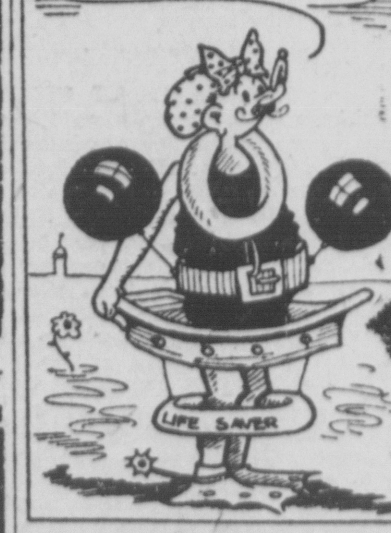

Then came the McCormick self rake, an awkward unwieldy affair drawn by four horses and sweeping off the grain with a clumsy contrivance. This was much improved on by the Bope dropper which dropped the grain from the rear of the platform. The wire self-binder was used in the '60's and was a cumbersome affair which had to be transported on a specially constructed low platform wagon. A straw binder was used but was not a success. Then came Appleby with his epoch making knottor and the thing was done. Deering was one of the first, if not the first, to apply it to his harvester and now it is in general use.

## MANY FISH DYING IN MAUVAISTARRE LAKE

For some unknown reason scores of fish are now dying in Mauvaistarre lake. The varieties that seem to succumb to the mysterious power are mostly small sunfish and crappie but these two are dying in wholesale lots. Yesterday the banks were lined with dead fish and the air was full of the pungent odor of their rotting bodies.

There are various things that could be the cause of this wholesale disappearing of the sporting stock. The most plausible is the sudden change that the fish which put into the lake last week were subjected to being brought here from Meredosia.

Ladies of Asbury church will serve burgoo soup, sandwiches, pie, cake, ice cream, tea and coffee, Wednesday, August 2nd. Begin serving at 4:00 o'clock.

Henry Meyers and family of West North street motored to Springfield yesterday for a call on Mr. Meyer's father.

## A BANQUET THAT WAS ALMOST A TRAGEDY

"Three weeks ago at a banquet I was stricken with acute indigestion. Two doctors worked over me for an hour before I came to. I had had severe colic attacks but nothing like that. ## MANY PLAYERS IN JUNIOR TOURNEY

CHICAGO, July 31.—Upwards of 120 golfers less than 20 years of age, representing many parts of the United States and Canada will tee off tomorrow at Olympia Field Club in the qualifying round of the Western Junior golf championship. Secretary W. W. Harless of the Western Golf association tonight announced the pairings of 114 entries and others are expected to enter at the tee.

## BARBER SHOP IS BURGLARIZED

The Challans barber shop in East Morgan street was burglarized some time Sunday night. The robbers secured several razors and two or three pairs of shears and some loose change. The same shop was burglarized about six weeks ago and a quantity of cigars taken.

## LOCAL TEAM WINS GOLF MATCH

Osborne Features for Locals—Good Golf Shown Gallery.

The Jacksonville city golf team defeated Springfield's best in an eighteen hole match on the local course by a score of seven up. Marcy Osborne valiantly bore the load of winning for the local men, and the second team, composed of Flood and Masters, did not wake up until the latter part of the contest, but, oh, how they stepped when they found their pace.

The first team of the Jacksonville men was composed of Marcy Osborne and Jack Keywood, Nichols park "Pro." The visitors representatives in the first foursome were Norman Walton, Bunn park professional, and Walter Reid, Springfield, municipal champ.

On the fifth hole things were looking pretty bad for the locals, both teams were 12 down, and the gallery was beginning to lose hope. It was at this point that A. M. Masters and Leo Flood, the Jacksonville second foursome, began to show their true ability. They had allowed the visitors, Johnnie and B. W. Figuiera, to pile up the score of 8 up on them. But the local men proved themselves real golfers and made their final score 4 up.

In the contest of the first foursome neither side held an advantage for any length of time. First the visitors would be on top and then the locals would take their turn. At the end of the match our players were 3 up, making the total Jacksonville score 7 up, and winning the laurels.

The return match with Springfield probably be played some time in September. At that time the Capital City men expect to have their revenge. Following are the players and their strokes per hole:

## WHITE HALL WINS FIRST OF SERIES FROM ROODHOUSE

Takes Contest by 7 to 4 Score—Teams Will Play Five Games.

Roodhouse, July 31.—Local players went down to defeat at the hands of White Hall yesterday in the first of a series of five games, by the score of 7 to 4.

Dale, the pitcher for White Hall is said to be a former Cardinal hurler and worked well for the visitors.

A great deal of interest has been aroused between the two towns and next Sunday's game will be a hard fought battle.

Sixteen bingles were obtained off Hartman, the hardest he has ever been hit since pitching in Roodhouse.

## LEONARD ARRIVES AT MICHIGAN CITY

Michigan City, Ind., July 31.—Benny Leonard did not work out here this afternoon. He was busy locating his mother and sister comfortably in a cottage on the Lake Michigan beach. He will begin his boxing workout tomorrow and will train at a club a short distance from his cottage.

The champion's right eye bears a nasty cut which was received in the Tenderloin bout. The injury is healing rapidly and it will be tender next Saturday when he meets Ever Hammer in a ten round bout in the Fitzsimmons bowl.

"I'm not holding Hammer cheaply," Leonard said. "Anyone who can beat Dave Shade, Richie Mitchell and Charley White must have something."

Hammer goes on the road every morning at 5 o'clock and dons the gloves every afternoon with his sparring partners.

## DETROIT WON THEIR THIRD STRAIGHT GAME

## INDEES DEFEATED UNION GIANTS 6-5

Game is Hard Fought and Exciting—Visitors Come Near Tying Score in Ninth.

Frank Smith's indees won an exciting game from the Springfield Union Giants at South Side park Sunday afternoon the final score being 6 to 5.

The game was hard fought and not the Indies gotten to Petross in the first two innings for five runs the game probably would have ended differently. Poston relieved Petross in the second with one on and two down and make Clark roll to Canlier. After that he only allowed one hit, that by DeFrates in the sixth which scored Christopher.

Fryman pitched good ball for the Indies the not as effective as against Murrayville the previous Sunday. However, he was tight in the pinches and only in the first and eighth did the visitors nick him for runs. He struck out nine men, walked three and hit one.

The Indies gave Fryman good support, despite the fact that four mishaps were chalked up. However, only one figured in the scoring of the Giants.

Petross who gave the Indies so much trouble on a previous visit it was easy for the local batters Sunday. He was nicked for two hits and three runs in the first and two hits and two runs had been scored off of him in the second when he retired in favor of Poston. The latter held the Indies to one single during the remainder of the game.

How the Runs Were Made The Giants scored two runs in the first on a walk and a single and three bagger.

In their half of the same inning the Indies took the lead, making three runs off of a walk, a sacrifice, an error and a three bagger. In the second the Indies added two more on a muffed fly, a single, a stolen base and a two-bagger. One more came in the sixth on a walk, a stolen base and a single.

The Giants were kept away from the pan until the eighth when they scored three runs on two singles, a stolen base, a sacrifice and a double. The score: Indies AB R H O A E. Wright, 2b, 3 0 1 1 0 0

## NEW LOW PRICE

**RECORD FOR WHEAT**  
By Associated Press.  
CHICAGO, July 31.—More  
than 1,100 car loads of wheat ar-  
rived here today, and the market  
dropped to new low price records  
for the season. The close was  
unsettled at a net decline of 1½  
to 5½c, the latter for July, with  
September \$1.05½ to \$1.05½ and  
December \$1.07½ to \$1.08.  
Corn lost ½c to 1½c, oats 1c  
to 1½c, and provisions 5c  
to 20c.

In addition to the big receipts  
which were finally announced as  
totaling 1,142 cars, a sharp set-  
back in Liverpool quotations did  
much to force the wheat market  
her to go down grade from the  
start and to show but slight  
power to rally. Hedging sales of  
the new crop were the heaviest  
yet witnessed and there also was  
selling pressure on foreign ac-  
count. Demand appeared to be  
confined chiefly to shorts, in-  
cluding a prominent eastern  
trader. Exporters were said to  
have filled their most urgent re-  
quirements and to be inclined to  
hold off as much as possible from  
further buying especially during  
weakness of foreign exchange.  
Some authorities expressed an  
opinion that after today's big re-  
ceipts the crop movement would  
slacken, arrivals today having  
been crowded forward in the il-  
lusive hope of getting the bene-  
fit of a month end bulge in  
prices. As a matter of fact, be-  
lated liquidation was the feature  
of today's trading in the July de-  
livery. Decided increase of the  
United States visible supply total,  
together with harvest progress in  
the northwest and the prospec-  
tive settlement of the railroad  
strike were in most quarters re-  
garded as contributing bearish  
factors in the market taken as a  
whole.

Corn and oats descended with  
wheat and as a result of private  
corn reports. September corn  
touched the lowest price since  
1912.

The provision market, the  
weakness of grain was more in-  
fluence than higher quotations  
on hogs.

## CASH GRAIN REPORT

By Associated Press.  
CHICAGO, July 31.—In spite  
of liberal receipts, wheat in the  
cash market was in good demand  
today, with leading elevator in-  
terests the best buyers. Prem-  
iums were reduced ½ to 1½c. The  
market closed 2½c lower.  
Cars inspected: Wheat, 1,142;  
Corn, 288; Oats, 141.

**WHITE HALL WOMAN IS SEVERELY BURNED**

Mrs. Al Andrews sustains Bad Burns While Fighting Fire in Closet—Other White Hall Items.

WHITE HALL, Ill., July 31—Mrs. Al Andrews, residing on Sherman street, immediately east of the grade school building, suffered severe burns about the hands and arms Saturday in fighting flames that destroyed a quantity of clothing in a closet. She had struck a match and a particle of the burning sulphur ignited some clothing at her back. This is her second experience of the kind, and she is ready with object lessons on the danger of striking the common sulphur match.

Ross Johnson, the deputy marshal who was seriously wounded by fugitives from justice at Granite City last week, was 50 years of age on Saturday, and his friends of White Hall and vicinity organized in paying their respects by mailing him some 200 postal congratulations.

Mrs. Mabel Melsenbach returned to St. Louis today. She sang at the funeral of Mrs. E. N. Gilliam at Winchester Saturday, and was in Pearl Sunday to leave her son Edward with W. H. Melsenbach and family for a summer sojourn. She also sang Sunday morning at the service of the First Baptist Sunday school.

Inadequate markings for the detours between White Hall and Roodhouse stirred local road officials to action today. This main highway is barricaded at the city limits of each town, but many drivers come in on the highway by side roads. This is especially the case among strangers.

A man from Chicago left Roodhouse Saturday via West Roodhouse and followed the course as best he could, which brought him in on the main highway at the Amos place over a roadway from the northwest, about a mile north of the White Hall city limits. On reaching the city limits he found the road barricaded into White Hall. This necessitated his going back to the Amos place and east over the lane to the road via the interlocking plant. This man stated that he had gone eighty miles out of his way during the day because of inadequate detour markings through Illinois. He stated that such markings in Indiana and Michigan, where large amounts of road construction are under way, are perfect, while everywhere in Illinois the opposite seems to be the case.

This caused local action that induced C. A. Ruckel to take the lead in the matter of providing better markings for the Roodhouse and White Hall route. Mr. Ruckel was president of the White Hall automobile club that has manifested little life in the past few years, but it is in his capacity in putting over the Illinois highways bond issue in Greene county that makes him the leading man sought when matters of consequence to road affairs are needing action.

**SPECIAL ASSESSMENT NOTICE**  
Notice is hereby given to all persons interested that the City Council of the City of Jacksonville, Illinois, having ordered that a local improvement, consisting of a street pavement, be constructed on East Morton avenue in said city, from the east curb line of South Lardin avenue, running thence east along said avenue for a distance of 1,000 feet, which said pavement shall be constructed in accordance with the plans, plats and profiles on file in the office of the City Clerk of said city, and which said improvement shall consist of a concrete pavement seven inches in thickness, all of which is further shown and more particularly described in the plans, profiles and specifications for said work, on file in the office of the City Clerk of said city, to which reference is hereby made, the ordinance for the same being on file in the office of the City Clerk of said city, and the petition in this proceeding, and said City of Jacksonville, Illinois, having applied to the County Court of Morgan County, Illinois, for an assessment of the cost of said improvement, according to benefits, said assessment being payable in ten installments, each bearing interest at the rate of six per cent per annum, an assessment therefore having been made and returned to said court, the final hearing thereon will be had on the 17th day of August, A. D. 1922, at the hour of ten o'clock, A. M., or as soon thereafter as the business of the Court will permit.

All persons desiring may file objections in said court before said date, and may appear at the hearing and make their defense. Dated at Jacksonville, Illinois, July 31st, 1922.

EARL B. WISWELL, Appointed to make said assessment.
